- 1 A Model 12 Winchester decorated with gold and silver scene of Skeet shooting. Fine gold and silver lines and flowers decorate the edges and sides. Fine engraving also decorates the receiver..
- 2 A A combination of gold and silver birds and dog with fine silver and gold lines and leaves are on the top, sides, and bottom.
- 2 B Gold and silver birds and lines enhance the sides of this double barrel shot gun.
- 3 A This over and under receiver is almost completely covered with fine engraving and gold work.
- 4 A This receiver is sculptured to cover the entire surface.
- 5 A This receiver is also completely covered with fine sculpture work.
- 5 B Another example of gold and silver work on the receiver of an over and under.
- 6 A An example of the work done on an aluminum receiver. The work is not reblued but left with the white metal bare.
- 6 B Plain scroll work done on aluminum.
- 7 A Both sides and the top of an aluminum receiver done with wild life scenes.
- 7 B Aluminum receiver covered on both sides with scroll work and wild life.
- 8 A Example of very fine scroll work done on the sides of a double barrel. Some engraving is carried on to the barrel.
- 8 B Fine sculptured wild life scene done in relief to cover all of the receiver.
- 9 A An example of a Model 12 with six gold or silver inlays with a fine border around the engraved surface.
- 9 B Complete coverage of both sides of a receiver with eleven inlays on the sides.
- 10 A Sample of fine scroll work with eight inlays.
- 11 A Both sides of receiver with inlays and sculpture work.
- 12 A Extremely fine scroll work on the sides of a steel receiver.
- 12 B Sculptured wild life scene.
- 12 C Views of fine scroll work on an over and under.
- 13 A Work done on lever action rifle with inlays and fine border line. Animals may be changed to ones of your choice.
- 14 A Work done on the sides of small caliber rifle with inlays.

- 14 B Scroll work and animal done on aluminum trigger guard and floor plate. Animal may be changed to one of your choice.
- 14 C Work done on steel floor plate, trigger guard and barrel. Inlay lines and flowers to decorate down the barrel.
- 15 Stock work done to decorate as pictures show.
- 16 A Rifle engraved and inlayed where ever possible on the barrel and floor plate and trigger guard, scope mount, and rings are covered also.
- 17 A Receiver, scope mount, and rings barrel engraved about ten inches out. Floor plate with any animal in gold, silver, and gold lines and flowers. Three gold initials on trigger guard. There is engraving on most of the floor plate that is not covered by inlays.
- 17 B Good example of floor plate with gold inlay..
- 18 A Four views of a Model 21 with the normal amount of coverage that a gun would get.
- 19 A Aluminum receiver and trigger guard. Small gold and silver leaves and acorn on barrel.
- 20 A Coverage on pump shot gun with silver and gold decoration.
- 21 A Fine scroll work and eight inlays on receiver.
- 22 A Aluminum scope with deer head engraved in center.
- 22 B Plain scroll work on aluminum scope.
- 23 A View of a Browning Automatic rifle with animal inlay in the center and the alloy trigger guard and floor plate engraved.
- 24 A Ruger #1 engraved with animal on each side and five inches of scroll on the barrel.
- 24 B Floor plate engraved with plain scroll.
- 25 A Colt 45 engraved and lined with gold or silver, the colt is done in gold or silver.
- 26 A Plain scroll on revolver.
- 26 B Plain scroll work with fine gold line work.
- 27 A Plain scroll on revolver.
- 27 B Plain scroll on revolver.
- 28 A Reproduction of old engraving on Mauser.
- 28 B Plain scroll on old Mauser.
- 29 A Scroll work on single action with alloy parts left in the white.
- 29 B Engraved Smith with gold line and S and W.
- 30 A National Match work on flat polished surface only.
- 30 B 100% coverage on Browning automatic.

GENERAL INFORMATION

Some of the pictures are very poor and do not give a good idea of the fineness of the work that is done on the guns.

At the present time, engraving takes about six weeks. The time in traveling to and from Japan depends on the conveyance you choose. Air mail takes about two weeks, and Sea mail takes about ten weeks. Most long guns cost about \$15.00 each way by air and about \$3.00 each way by sea. Hand guns cost about \$3.00 each way by air. The total elapsed time will be nine weeks by air or seventeen weeks by sea.

You should insure your gun when mailing it to us against loss in the mails.

Some designs will vary from the pictures that are shown, but they will be as close as possible with your receiver.

It is smart to send the barrel since there is some engraving done on most of them. Also the barrel will be blued to match the receiver.

When sending hand guns please remove the firing mechanism and any internal parts that are not to be worked on.

Do not send any wood that is not to be worked on.

If you have a pattern that you would like engraved on your gun, send us a copy of it and, within two weeks, we will give you a price for the work.

When your gun is finished, a tracing of the actual engraving will be sent to you along with a bill for the exact postage. As soon as payment for the total charges is received, your gun will be returned to you by insured mail or United Parcel.

Prices are subject to change. Notice will be given before work is started.
DO NOT SEND ANY MONEY UNTIL YOU RECEIVE AN INVOICE FOR THE ENTIRE AMOUNT!
